

LUKE LIND
WELD COUNTY 4-H ALUMNI

Fairs, Livestock Judging and attending the Washington Focus trip were some of the most memorable times for me in 4-H. I met many lifelong friends and been given great opportunities which broadened my horizons growing up in Weld County. Because of these experiences in 4-H, after high school I decided to go to college and get a degree in Animal Science from Colorado State University. I believe that 4-H gives our youth responsibility's and life skills that can be put to use every day. My two boys are involved in 4-H and my hope is that they too will have the opportunity to benefit from the experiences that 4-H has to offer.
